Workshop on Rail Technology 2019

17 – 23 November 2019, Poznan, Poland

The Workshop on Rail Technology is an international event held to let students and young scientists interested in rolling stock area to network, exchange experience and learn more about the rolling stock and it's industry.

The Workshop on Rail Technology is organized annually since 2009 in cooperation between Technical University of Berlin and Poznan University of Technology and Delft University of Technology. This year we celebrate the 10th anniversary of the event!

If you are a student or a young scientist working on rail projects, willing to exchange experience and learn more about rolling stock, do not hesitate! Contact with the Workshop coordinator at your University and join us in Poznan!

**All participants will be provided
with accommodation and catering.**

BENEFITS OF ATTENDANCE:

- Network with foreign colleagues working on rail topics
- Learn about rail vehicles' construction
- Participate in immersive workshops to solve real transportation problems
- Meet the rolling stock industry
